\\ WHY JJA ACADEMY?

1) The Academy is unique because it works in conjunction with a design practice (JJA), which is registered with the Royal Institute of British Architects, Chartered Society of Designers and the Museums Association of Great Britain.

2) Please Note: The Academy's speciality is to get members (students) into the world of work - many working on actual residential projects during their involvement with JJAA. These members (students) complete their diploma and automatically continue with their freelance work (many also using the association support system). Students are only accepted by the Academy on condition that they acknowledge that the courses work in conjunction with a design practice and that therefore the structure and content of the course days are subject to change.
